

## IMJIN PARKWAY WIDENING & ROUNDABOUT PROJECT

---

**Construction Activities Update: December 15 – December 26, 2025**

**PLEASE BE ALERT!**

**The enforceable speed limit through the construction zone is 25 MPH**

**PLEASE REMEMBER TO CHECK THE PROJECT WEBSITE FOR THE MOST CURRENT ROADWAY CLOSURE INFORMATION AT [www.imjinparkway.com](http://www.imjinparkway.com)**

**TIPS FOR DRIVING ROUNDABOUTS:**

- **VEHICLES ALREADY IN THE ROUNDABOUT HAVE THE RIGHT OF WAY**
- **VEHICLES MERGING INTO THE ROUNDABOUT:**
  - **CHECK FOR PEDESTRIANS CROSSING IN THE AREA**
  - **YIELD TO VEHICLES IN THE ROUNDABOUT AND MERGE SAFELY**

---

**What's Happening in the Next 2 Weeks (December 15 – December 26)**

**Day Shift**

- Complete planting native plants.
- Continue working on list items to achieve project completion.
- Complete installing permanent striping and markings.
- Begin/complete markings on multi-use trail.

**Closures:** No closures are anticipated. However, be alert for traffic lane shifts while we complete pavement markings. There may also be some limited flagging on side streets while striping/markings are completed.

**Please check the website for the latest information on closures [www.imjinparkway.com](http://www.imjinparkway.com)**

**Activities That Took Place Last Week (December 8 – 12)**

- Continued planting landscape materials (native plants and trees).
- Complete approximately 95% of all striping and markings; remainder to be completed next week.

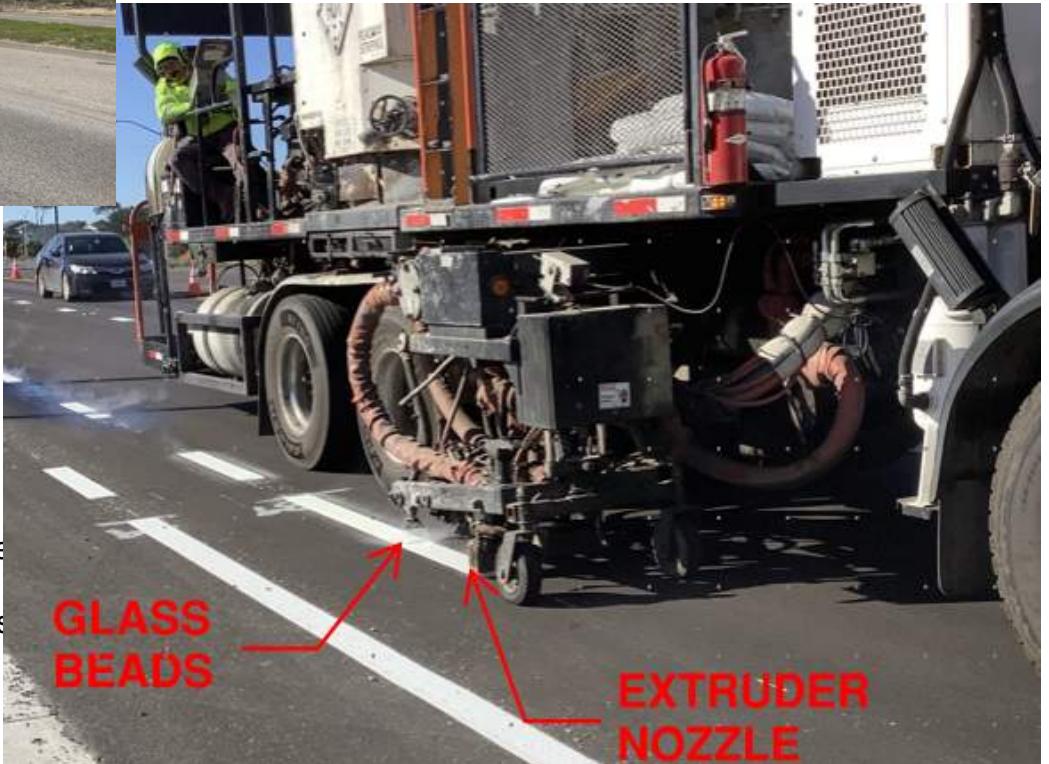

**Future Construction Activity and Information: What's Planned in the Future?**

- **Phase 4: Final permanent pavement striping and markings!** We will complete all pavement stripings and markings this week (week of 12/15). The roadway is currently open to its full and final configuration! We still have striping and markings to be installed on the multi-use path/trail to be scheduled but this will not impact the roadways. **THANK YOU FOR YOUR PATIENCE!**
- **Artwork installation at roundabouts.** We are working with the contractor and his vendor to finalize the final details of the artwork. Delivery/installation is anticipated in March of 2026.

## IMJIN PARKWAY WIDENING & ROUNDABOUT PROJECT

### PROGRESS PHOTOS

Thermoplastic striping material is heated to over 400 degrees in boilers mounted on the truck. The heated material is then extruded through a nozzle onto the pavement. A nozzle mounted just behind the extruder nozzle "blows" glass beads onto the stripe to enhance reflectivity at night.

Smaller motorized or "walk-behind" equipment is used to install the heated thermoplastic material for the various markings like arrows and cross walks
